

Cyclist inattentive to blind spots

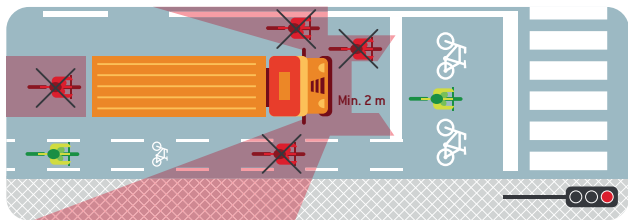

BRUSSELS MOBILITY

BRUSSELS REGIONAL PUBLIC SERVICE

Do not turn a blind eye... ...to blind spots!

Always be extra vigilant when you're riding close to a bus, a semitrailer or a lorry:

- Never overtake a lorry on its right side, even at a stop.
- At crossings, position yourself in front of the vehicle (at least 2 metres).
- Make eye contact with the driver.
- Always keep a safe distance.
- At junctions, before proceeding, make sure the vehicle is not turning off.

Even cautious drivers may not see you from every angle...
